- Database Mangement System
- MS Office
- Python
- HTML
- CSS
- Java Script

Projects

- **Promte Engineering: Travel_Amaze**
  - Prompt engineering is the strategic crafting of text prompts to effectively communicate with AI models, guiding their responses to achieve specific goals, clarity, and desired outcomes.
  - The project involved developing a chatbot prototype using Rasa to address common inquiries and provide personalized recommendations to tourists visiting a specific region.
  - Project explores the application of the Rasa framework in enhancing visitor engagement and customer service within the tourism industry.
  - This project is built by using Rasa framework, Wikimedia and some other API keys, and flowbite for user interface.

- **Movie Ticket Booking System**
  - A user-friendly online platform for booking movie tickets, built using HTML, CSS, and JavaScript.
  - Search Bar: Allows users to search for specific movies.
  - Filters: Enables users to filter movies by genre, including Tollywood, Bollywood, Hollywood, and Cartoon.
  - Movie Listings: Displays a list of movies with corresponding images, titles, and buttons for booking and trailer viewing.
  - Trailer Button: Redirects users to the YouTube page featuring the specific movie trailer.
  - Book Now Button: Redirects users to a page displaying available showtimes and seats.
  - Discount Feature: Applies a 10% discount for bookings of three or more seats.
